Stage Your Properties With Fine Art

One of the services Carousel Art Group provides is the staging of fine art pieces in multi-million dollar listings. These pieces include fine art paintings, art prints, fine art photography and sculptures so that home owners can upgrade the interior and create the aesthetic that they envision. We stand true to our core values by including a broad array of artwork by artists with various art styles, mediums, and design backgrounds.

We work with homeowners, real estate developers, and interior design firms all over the country and can accommodate you for home listings of \$3 million and above. When clients are looking for truly distinctive art pieces, they can count on us to help make their vision a reality.

Let us create an atmosphere that inspire buyers and leave a positive impression.

- Our team works closely with the interior designer and decorator to make sure each pieces work with the furniture and the overlook of the home.
- When the pieces are selected, we insure them and organize transportation in between our showroom and the staged home.
- Installations usually require 3-5 professional art handlers depending on the size of the project who all have to go through a COVID-19 test prior to entering the premises.
- Our staged properties sell faster than the norm and above market price.
